

PAD JUMPING & CROSS-COUNTRY FLAT

INSTRUCTION FOR PAD REPLACEMENT

VENICE EVO

- 1) Turn the stirrup upside down and unscrew all the 6 screws placed under the tread using the specific wrench included in the package.
- 2) Once all the screws have been unscrewed, you will be able to easily remove the grip plate from its slot.
- 3) Replace the old plate with the new one inserting it in its specific housing, then secure it by putting back the 6 screws under the tread, using the specific wrench.
